Where People Served by State IDD Agencies Lived on June 30, 2015

An estimated 1,211,535 people received long-term supports and services (LTSS) from state IDD agencies as of June 30, 2015:

- **5%** lived in a host or foster family home
- **26%** lived in a group IDD setting
- **58%** lived in the home of a family member
- **11%** lived in a home they owned or leased (own home)

*Note: These percentages exclude nursing home and psychiatric facilities*

An estimated 512,969 LTSS recipients not living with a family member:

- **56%** lived in settings of 3 or fewer people
- **25%** lived in settings of 4-6 people
- **11%** lived in settings of 7-15 people
- **8%** lived in settings of 16 or more people

An average of 2.2 people lived in each non-family IDD setting

Preparation of this presentation was supported, in part, by cooperative agreements (90DN0297, and 90DN0291) from the Administration on Intellectual and Developmental Disabilities, Administration for Children and Families, and a grant (#H133B080005) from the National Institute on Disability and Rehabilitation Research (NIDRR). Grantees undertaking projects under government sponsorship are encouraged to express freely their findings and conclusions. Points of view or opinions do not, therefore necessarily represent official AIDD or NIDRR policy.
