

# People with IDD in the United States and the Proportion Who Receive Services

**4.71 million** people in the United States had Intellectual or Developmental Disabilities (IDD) in 2015

**31%** 1.46 million people with IDD were known to or served by state IDD agencies

**26%** 1.21 million people with IDD received long-term supports or services through state IDD agencies

Note: US IDD prevalence estimates from 1994/95 National Health Interview Survey Disability Supplement

Preparation of this presentation was supported, in part, by cooperative agreements (90DN0297, and 90DN0291) from the Administration on Intellectual and Developmental Disabilities, Administration for Children and Families, and a grant (#H133B080005) from the National Institute on Disability and Rehabilitation Research (NIDRR). Grantees undertaking projects under government sponsorship are encouraged to express freely their findings and conclusions. Points of view or opinions do not, therefore necessarily represent official AIDD or NIDRR policy.
