Living Arrangements of People Served by State IDD Agencies Lived on June 30, 2016

An estimated 1,228,700 people received long-term supports and services (LTSS) from state IDD agencies:

- 58% lived in the home of a family member
- 25% lived in a group IDD setting
- 12% lived in a home they owned or leased (own home)
- 5% lived in a host or foster family home

Note: These percentages exclude nursing home and psychiatric facilities

Of the estimated 513,790 LTSS recipients not living with a family member:

- 56% lived in settings of 3 or fewer people
- 26% lived in settings of 4-6 people
- 10% lived in settings of 7-15 people
- 8% lived in settings of 16 or more people

An average of 2.2 people lived in each non-family IDD setting

2.1 people per setting in nonstate settings

14.0 people per setting for state-operated settings

Preparation of this presentation was supported, in part, by cooperative agreements (90DN0297) from the Administration on Intellectual and Developmental Disabilities, Administration for Children and Families, and a grant (#H133B080005) from the National Institute on Disability and Rehabilitation Research (NIDRR). Grantees undertaking projects under government sponsorship are encouraged to express freely their findings and conclusions. Points of view or opinions do not, therefore necessarily represent official AIDD or NIDRR policy.
